**Attachments:** 15013200T050-SP-JDD.docx; 15013200T050-SP-JDD.pdf

FYI

Dana, please review for your awareness. GAI will sample and provide us the data for the DMR. Once this plan is final, we'll talk about record keeping and reporting requirements.

Parallel to this path, we are also exploring separating the D Pond toe drain from S107. There is a pipe roughly 14ft down from the top of the grating which contains groundwater and toe drain from D Pond. This pipe would be blocked, a sump installed to the North of the grating for S107 with a pipe penetration and pumps to get it into D Pond. Long term, this material will be sent to PWCSA if we get their approval and permit, meeting this Friday at PWCSA HL Mooney on that process.

Stay tuned.

**Subject:** DRAFT Sampling Plan

Ken,

As requested, attached is a DRAFT Sampling Plan to address the sampling / testing at the following outfalls and consistent with the DEQ's DRAFT Permit for Possum Point:

- 503 (Interim / final),
- 005 (Interim discharge from Pond E Holding Basin),
- Outfall 010

Please provide comments at your earliest convenience.

Per discussions today we are also going to provide services to sample Outfall 010 (Pond D Toe Drain) as soon as possible (parameters will be as indicated in your email this morning).

Sincerely,

**John D. DeBarbieri, P.E.**
